

PRODUCT SPECIFICATION

Product Information:

Trade Name	TGC Universal 3 Tier glove dispenser
Construction	4mm mild steel with a welded construction
Coating	Highest quality white powder coating
Features	This finish and design provides for high abrasion and long-term durability with strong corrosion resistance. Each box load zone is equipped with high tensile stainless steel spring to keep each box secure in the dispenser. Each dispenser comes as standard with the mounting fitting to secure each dispenser to the wall. 4 X 25mm countersunk stainless steel screws and wall plugs to match. The design of the dispenser insures that it is able to take any box size or shape in the standard glove box sizing from any glove manufacturer. Manufactured in China
