Disposable Foam Earplugs

SOFT COMFORTABLE FIT

Moldex® Zebras® are made of extra-soft, extra light foam. Their tapered shape fits easily in the ear canal, allowing them to seal gently and snugly without pressure. They're so comfortable you'll forget you're wearing earplugs.

INDEPENDENTLY TESTED

Zebras® earplugs offer a high SLC80 29dB, making them suitable for most noisy environments. So, while they look like fun, they provide serious protection.

Single dispenser Magnetic
Bracket (6868)

- ✓ Highest independently tested SLC80 29 dB. Tested according to AS/NZS 1270:2002.
- ✓ Extra-soft, low-pressure foam for comfort and fit.
- ✓ Tapered shape for easy insertion and removal.
- ✓ Non-irritating smooth surface.
- ✓ Available in EcoStation® dispenser for added convenience and compliance.
- ✓ 100% PVC-Free, for reduced environmental impact.

MODEL NUMBER	DESCRIPTION	QUANTITY PER BOX	QUANTITY PER CASE	SLC
6709	Zebras™ EcoStation®	500 Pairs per Dispenser	4 Dispensers per Case	29 dB
6710	Zebras™ EcoStation® Refill	500 Pairs per Dispenser	4 Dispensers per Case	29 dB
6920	Zebras™ Uncorded	200 Pairs per Dispenser	10 Boxes per Case	29 dB

ATTENUATION DATA

Tested According to AS/NZS 1270 by Challis & Associates. Note: For full details of methods of selecting a hearing protector, see AS/NZS 1269.3. Hearing protector Class 5 tested to AS/NZS 1270. When selected, used and maintained as specified in AS/NZS 1269.3, this protector may be used in noise up to 110dB(A) assuming an 85dB(A) criterion. A lower criterion may require a higher protector class.

Frequency (Hz)	125	250	500	1000	2000	4000	8000	SLC ₈₀ 29 dB Class 5

EARPLUGS EVERYWHERE AND ANYWHERE THEY'RE NEEDED

EcoStation

Innovation and sustainability are at the heart of our products, and these values are clearly demonstrated in the original EcoStation. All of our EcoStation products feature a snap-in refill that can be changed in seconds and the empty bottles are 100% recyclable. Plus, workers take only one pair at a time, so there is less waste. Less waste means more cost savings. Lower cost per pair than packaged earplugs.

Our family of earplug dispenser solutions are:

ANYWHERE AND EVERYWHERE

Using either the included wall-mounted bracket or the innovative Moldex Magnetic Bracket, you can install our earplug dispensers virtually anywhere and everywhere to help increase compliance and make it convenient for workers to protect their hearing.

DESIGNED TO REDUCE WASTE AND COST

Users take only one pair of earplugs at a time. This helps to prevent wasteful grabbing of multiple pairs, which in turn will help lower overall hearing protection program costs.

RECYCLABLE

All empty EcoStation' bottles are 100% recyclable.

100% PVC-FREE

Moldex has taken a leadership position among global PPE manufacturers in creating products and packaging without the use of harmful PVC.

INDEPENDENTLY TESTED

All of our earplugs are independently tested by Michael & Associates Laboratory to ANSI S3.19-1974. We independently test all of our NRR ratings because we believe our users deserve to have full confidence in the level of protection they can expect to receive when their hearing protection devices are worn properly.

MAGNETIC BRACKETS FOR ALL ECOSTATIONS & PLUGSTATIONS

KEEP AN EARFUL WITHIN EASY REACH

Hang earplug dispensers throughout a facility in seconds and make it easier for workers to quickly access their hearing protection. Moldex magnetic brackets are the first of their kind and fully compatible with all PlugStations and Eco Stations.
