## HEATWORX<sup>®</sup> REINFORCED

Ironclad's patent pending Hotshield<sup>®</sup> palm technology combines high dexterity with heat, cut, abrasion and shrink resistance. Add that to oil repellency and washability and you have a glove that truly does it all.

**Kevlar<sup>®</sup> Inner Liner**  
For heat and cut resistance.

**Hotshield<sup>®</sup> Reinforcements**  
Reinforced in critical areas for maximum durability.

**Kevlar<sup>®</sup> Blended Shell & Stitching**  
For durability and protection in high heat environments.

**Patented Palm Design**  
Excellent dexterity and durability.

**Ironclad Hotshield<sup>®</sup> Technology**  
Heat resistance without sacrificing dexterity.

**Breathable, Flexible & 100% Machine Washable**  
For comfort and convenience.

### ADDITIONAL FEATURES

Extended gauntlet cuff for added protection and comfort

### BEST USES

Fabrication, Metal Working, Manufacturing & Assembly, Hi-Temp Automotive Work, Welding
