

PERRYLINE ENCAPSULATED BUOYANT LINE HOLDER

Aids retrieval of your Perrybuoy

A neat solution that prevents your buoyant heaving line from twisting and tangling when thrown to a person in the water. This tough plastic UV resistant rope holder fits neatly into the internal diameter of your Perrybuoy lifebuoy.

BENEFITS:

- ✓ Perryline with 30m 8mm line complies with solas requirements
- ✓ Rope holder is made with UV resistant plastic which increases the lifespan
- ✓ Additional versions available for land use are fitted with 6mm line
- ✓ Land based versions can be used with the SOS4 and SOS7 lifebuoy cabinets

“ Prevents the buoyant heaving line from tangling ”
